## Little Rock Mayor Orders Vacations To Cut City Expense

Employees of the City Begin Enforced Vacations Today

### POLICE-FIREMEN CUT

Both Police and Fire Department Are Listed For a Rest

LITTLE ROCK, Sept. 16.—(AP)—Thirty-four men of the Little Rock Police Department, were today given notice of an enforced vacation of a week without pay.

Mayor Robinson, Monday began with the police department and ended with the fire department today.

The measures were adopted as a means of keeping the city within its financial bounds during the remainder of the year, and it was said yesterday that the committee was not yet through with its work.

The mayor said today that every department of the city government would have its share of the enforced vacations without pay.

Eleven policemen were sent home to begin 17-day leaves of absence without pay.

Trustees from the city jail were put to work as janitors and porters at the city hall. Other trustees were working as bouncers on the garage trucks. Employees in other departments were affected by the retrenchment action.

The orders that the Police Department got will cripple it considerably. When the 11 men were released yesterday for 17 days return to work, another detachment will be given a temporary layoff of the same duration, and so on until every man in the department has taken a suspension. It was said yesterday that it first had been planned to lay off some of the men for the remainder of the year, but that the Finance Committee decided it would be better to have the entire force share in the enforced vacations.

## General Pershing—At 70

The years have dealt generously with General John J. Pershing, for as you see him here—erect, alert and still busy at his desk in the War Department in Washington—he was sitting for his seventieth birthday picture. The former commander in chief of the A. E. F. in the World War, and chief of staff of the U. S. Army from 1921 to 1924, was retired from active service at the age of 64. But now, with his seventieth birthday on September 13, General Pershing is chief of the Battle Monuments Commission.

## Bankers Meet In Little Rock Today

Plans Discussed For the Making of Loans to the Farmers

LITTLE ROCK, Sept. 16.—(AP)—Organization of credit organizations to afford funds to the drought-stricken farmers, was the main discussion at a meeting of approximately one hundred Arkansas Bankers here today.

The meeting was called by Joe H. Stanley, member of the state drought committee and President of the Arkansas Bankers Association.

Wood Netherland, president of the Federal Intermediate Credit Bank at St. Louis, offered the use of his bank, saying that they made loans on production, live stock, and the ability of the borrower as a producer.

Those banking the enterprise believe it will double its capacity and operation in two years, as a market for the output is established.

Ed F. Graves, one of Camden's best-known business men, will be general manager of the new industry. Gum and oak from this section will be the type of timber to be used in the manufacture of chairs and tables. An appropriate Camden truck park will be adopted.

HAIRISON, Sept. 16.—Believed by physicians to have been poisoned by drinking water from a spring near a lead mine, Mrs. Sam Farmer, aged 18, of Low Gap, Newton county, died early Monday morning at the home of her aunt, Mrs. Margaret Hoffman of Harrison.

Mrs. Farmer's husband and four others are in a serious condition, and it is believed they also drank from the spring which is on land owned by the Farmers. Mrs. Farmer was brought here last week and became seriously ill. Mr. Farmer was taken to his home yesterday in a serious condition.

Besides her husband, Mrs. Farmer is survived by her father, Floyd Waters of Low Gap; four sisters, Margaret, Dollie, Eugene and Ruby Lee Waters of Low Gap.

Man Arrested For Murder of Lingle

Chicago Police On Way to Identify Prisoner Reported

LOUISVILLE, Ky., Sept. 16.—(AP)—Admitting that he is "Ted Giesking," but denying that he knew anything about any murders, he was arrested here as a vagrant and ordered held by Chicago police as a suspect in the slaying of "Lingle."

George Williams, a Chicago policeman, is bringing a man here who said he saw Lingle fall and could identify the slayer.

Giesking said he was not connected in any way with the slaying and added that he did not even know Lingle. He is being held in default of \$5,000 bond.

Planes making the tour will include five ships of the 15th Observation Squadron, Arkansas National Guard, under the leadership of Capt. Robert Baker. Several planes will be entered from Fort Smith, Pine Bluff and possibly St. Louis and Kansas City, it was said.

Approximately 20 planes are expected to make the tour, starting from Little Rock October 1. The fliers will spend the first night at Pine Bluff and the second at Hot Springs, returning to Little Rock October 3. The purpose of the tour is to develop interest in aviation and encourage towns throughout the state to establish landing fields.

## Milton Sills Dies Suddenly of Heart Attack Last Night

Heart Attack Is Said By Physicians To Have Caused Death

### POPULAR ON SCREEN

Sills Listed Among Most Popular of Screen Stars For Many Years

LOS ANGELES, Sept. 16.—(AP)—Milton Sills, who deserted a career for a life on the stage, known to the world as the "two-faced" player, fell dead from a heart attack, while playing tennis at his home here last night. He was 48 years of age.

Sills is the second noted actor to die within a month. Lon Chaney, picturesque player, known as the man of a "thousand faces," having died in August.

Sills had been ill in 1929 and again last winter, but was thought at the time of his death to have been in perfect health.

Sills, once a professor of mathematics at Chicago University, was one of the athletes of the screen. Recently his health had not been good. He was confined to his home several weeks last spring with a nervous disorder.

Sills advanced to stardom in the films almost overnight after a successful stage career. Like many of those with whom he rubbed elbows in the theatrical world, his start was much by accident.

Reared in Chicago

He was born in Chicago January 12, 1882, and was educated at Hyde Park High School and the University of Chicago. He became a college instructor in mathematics. He was the son of William Henry and Josephine Sills.

Evinching a mild interest in amateur theatricals, Sills one day was seen by a leading producer who made him an offer. Sills accepted. His first training came in plays produced by Beasley Frohman Brady and the Shuberts.

Swiftly he rose to leading roles and the Broadway of 20 years ago accepted him as the matinee idol of "This Woman and This Man," "Just to Get Married," "The Governor's Lady," "Law of the Land," "Diplomacy," and others. He also appeared in a series of Shakespearean plays.

Sills was married first to Miss Gladys Edith Wynne. To them one child, a daughter, was born. The marriage ended in the divorce courts in 1925. A year later Sills and Miss Doris Kenyon were married. They are the parents of one son, who is now three years old.

Mrs. William Sills, his mother, and a brother Clarence Sills, a banker, live in Chicago.

Bandits Escape In Texas Bank Holdup

Unmasked Pair Scoop Up \$8,000 and Flee From Texas Town

MONT BELVIEU, Tex., Sept. 16.—(UP)—Two unmasked men about 25 years of age held up the Mont Belvieu State Bank Monday and escaped with between \$7000 and \$8000 in cash.

The two forced G. C. Banks, cashier of the bank, his wife and a bookkeeper, Floyd Williams, to lie on the floor while they took all the money in the cashier's cage and fled.

The two bandits escaped in an auto and collided with another car about a mile from town. They forced the occupant of the auto into which they crashed to give up his car, and they continued their flight in his car which was not as badly damaged as their own.

Towns to be visited include Loneoke, Augusta, Newport, Paragould, Forrest City, Pine Bluff, Monticello, Camden, Texarkana, Hope, Prescott, Hot Springs, Conway and Fort Smith. Brinkley, Waldo and Silvan Springs also may be included. The itinerary is tentative and may be changed.

Planes making the tour will include five ships of the 15th Observation Squadron, Arkansas National Guard, under the leadership of Capt. Robert Baker. Several planes will be entered from Fort Smith, Pine Bluff and possibly St. Louis and Kansas City, it was said.

Approximately 20 planes are expected to make the tour, starting from Little Rock October 1. ## Girl Is Tried as Bank Wrecker

Charged with making false statements to bank examiners in connection with the wrecking of the People's State Bank of Maywood, Illinois, Miss Laverne Lindgren, 25-year-old cashier, and Elmer Languth, president of the bank, are shown here as they went on trial together in Chicago. Peculations totaling \$173,000 are charged to the two. Languth, said to have been infatuated with his pretty cashier, used to be called the "boy money wizard" of Maywood.

## Turnips Planted In Record Amount

Over 1,400 Pounds of Seed Sold—Rain Breaks Drouth This Week

Turnips should be a popular item of food among farmers in the vicinity of Hope, from the large acreage which has been planted to this vegetable already this fall.

Three Hope dealers alone have sold 1,400 pounds of turnip seed this fall; three or four times more than they usually sell during the entire season. This should mean 1,000 or more acres of the crop to harvest within a few weeks, since Sunday's rain broke the adverse spell of planting weather, according to one Hope dealer.

Newly all rural stores also sell turnip seed, which would indicate an acreage greatly above 1,000 acres.

W.R. Jones, Member Legislature, Dies

Elected Four Times and Nominated For Fifth Term Is Record

YELLVILLE, Sept. 16.—(AP)—W. R. Jones, four times representative from Marion county and nominated for a fifth term, died at his home here last night after a brief illness.

He came from Wayne county, Illinois, to Yellville nearly a half century ago, and has made it his home ever since. For many years he was editor and owner of the Mountain Echo.

He is survived by his wife and two daughters, Mrs. J. B. Ward of Russellville and Mrs. S. P. Duren of Brawley, Cal. Funeral services will be held at the family residence at 3 o'clock Wednesday afternoon.

Mr. Jones first was elected representative from Marion county in 1895 and was re-elected in 1897, serving in the regular and special sessions of the Thirtieth and Thirty-first General Assemblies. He again was chosen as Marion county's representative in 1927 and was re-elected in 1929. He was nominated for a fifth term at the August primary. He was chairman of the Committee on Mines and Mining at the 1929 session and of the Committee on Public Service Corporations at the 1927 session. He was a member of the Committee on Rules and Local Legislation and the Committee on Confederate Soldiers and Widows at the 1929 session. He introduced a net income tax bill early in the 1929 session, but it never was called for consideration.

Apply the resources of the municipal power plant to develop the industrial and social resources of Hope.

Give city government in 1930, and improved sanitary conditions in the city and business back-roads.

Support the Chamber of Commerce.

**COUNTY**

A county highway program providing for the construction of a minimum amount of all-weather road each year, to gradually reduce the dirt road mileage.

Patented and economic support for every scientific agricultural program which offers practical benefits to Hope and county growth.

Encourage farmer organizations, believing that cooperative effort is the best way to the country as it is now.

**STATE**

Continued progress on the state highway program.

Feasible tax reform, and a more efficient government through the budget system of expenditures.

Free Arkansas from the middle risk.

**Arousing the Voters**

THE most discouraging thing about present-day politics in America is the lack of interest usually displayed by voters in the candidates and issues of an election.

People don't ordinarily get "steamed up" over political fights as they used to. Since their interest lags they fail to go to the polls; as a result a small organized minority—such as the ordinary municipal political machine—can generally have things pretty much its own way.

This failing is generally attributed to the American public's absorption in other interests. There are signs, however, that when genuine issues are presented in an election the voters will display all of their oldtime interest in affairs and will flock to the polls in droves.

The recent mayoralty election in Detroit is a case in point.

Following a turbulent eight months under a new city administration, Detroit has put its mayor, Charles B. Bowles, out of office, recalling him at a special election and defeating him in the run-off fight after a bitter struggle.

The salient feature of it all was the interest taken by the average voter.

An extremely heavy vote was cast, more than 325,000 voters going to the polls; and it is noteworthy that many of these voters utterly ignored the gubernatorial and senatorial primary ballots, marking their votes only in the mayoralty race. The fight for the governorship was just another political fight; the senatorial race, not quite so tame since it had two genuine leaders in the persons of Chase Osborn and James Couzens, seemed little more exciting. In either race was there anything to impress the voter with the necessity of his casting a ballot.

But the mayoralty race was different. The voters sensed that things of the highest importance were somehow involved in it. The candidates had dropped political platitudes in the campaign and had got down to the real issues. Detroit's voters responded by casting a very heavy vote.

The lesson is clear. Public apathy at election time is not the fault of the average voter. He'll turn out if the politicians make a real fight of the race.

**\$40,000 For a Princess**

SUPPORTING a royal family calls for a good deal of ceremony; and this ceremony often costs a good deal of money. However, the royal family is worth it, provided that it has the respect and admiration of the people, and footing the bill is all part of the game.

All of this is brought to mind by discovery of the fact that the birth of the daughter of the Duke and Duchess of York cost the people of England a little more than \$40,000.

The arrival of any royal baby is an event; and it was particularly so in this case, both because the youngster was born in Scotland and because there is just the possibility that she may, some day, be queen of England.

No royal baby had been born in Scotland for three centuries; so, when the Duchess of York elected to have the youngster make its appearance at famous Glamis Castle, elaborate preparations were made, and the preparations proved costly.

First of all, the child delayed its arrival for three weeks. Secondly, the doctors' fees were much higher than they had been in the birth of the duchess' first child. All told, \$25,000 was paid out to the medical experts who assisted the duchess. On top of that there were other items. For instance:

The royal salute, touched off on the birth of the baby, cost no less than \$3000. Baptismal fees accounted for another \$3000. Tips to the various servants about the castle cost \$2500 more, and nursing charges ran to more than \$1300. The baby's outfit cost \$500, and another \$500 was spent on telephone calls. These charges all added together and topped off with sundry other expenses brought the whole bill to more than \$40,000.

However, the English people do not seem to feel that this was extravagant. A royal family is a costly proposition under any circumstances, and it is the good fortune of the British to have a royal family that gives perfect satisfaction. By providing a focal point for the loyalty and affection of the empire's citizens all over the world the House of Windsor is worth many times what it costs. Bringing a new royal baby into the world is expensive, but it is worth it.

When a stranger comes to town, he doesn't care about your park, your hospital, your streets. He goes into a store and nine times out of ten forms his opinion of the town on the reception he gets there. He is the city's guest. If the clerk doesn't know how to welcome and serve a guest, the town is getting a stab in the back for which the employer himself is responsible.—The Honolulu Item.

The United States Health Service declares that no one food will supply all that the human body needs. The service evidently never heard of hash.—Seattle Times.

If there is not such thing as telepathy, then how does a fly that is shut up in the bathroom with you know you haven't a swatter handy?—Louisville Times.

**If They Thought the Atlantic Was Tough—!**

**Daily WASHINGTON LETTER**

BY RODNEY DUTCHER

**NEA Service Writer**

WASHINGTON—In 18 years the United States will be so thickly dotted with little bronze markers, proclaiming the distance above or below sea level or the latitude and longitude, that no one will be able to get more than 25 miles away from one of them.

That will be one result of perhaps the most comprehensive geodesic survey ever made by any country in the world, which is about to be undertaken by the Coast and Geodetic Survey.

**Must Not Be Removed**

The bronze markers will be disks about three and a half inches in diameter and will be firmly planted in bed rock or in blocks of concrete. A \$250 fine or imprisonment is the penalty for disturbing them. Some of them will be "bench marks," which is the term for markers recording the elevation and others will mark triangulation stations, announcing the exact latitude and longitude as fixed in the carrying out of the survey's method.

"Geodesic" comes from the noun "geodesy," which is a swell word for anybody's vocabulary and is the science and art of measuring parts of the earth's irregular surface by triangulation and astronomical observations. Geodesy includes determination of the magnitude and figure of the earth and is distinguished from ordinary surveying, which is concerned with limited tracts such as farms and counties for which the curvature of the earth need not be considered.

More accurate and comprehensive data on the physical makeup of the 3,600,000 square miles of continental United States is considered essential and the survey now has money from Congress to begin its 18-year job. Some basic work already has been done.

Absolute accuracy in land measurement and location of given points with relation to the rest of the earth's surface will be achieved, for the government geodesists can measure long distances, even over the most rugged mountains, with a possible error of no more than one foot in 40 miles. From the control surveys which they will make will be established thousands of selected points for use as starting and checking points for local surveys. The Geological Survey will use the control surveys for its detailed topographic maps showing roads, houses, mountains, rivers, valleys, swamps and so on. The elevations of the bench marks and the latitudes and longitudes of the triangulation markers will be determined in such a way as to compare with rivets in the framework of a great steel structure.

Lighter will send along expressions of congratulation.

Parents of the kidnapped 16-year-old New York girl who were ordered to send \$10,000 ransom money by carrier pigeon have a right to say, if anyone has, that money has wings.

"This is just another hot wave," said the jazz orchestra leader as he beckoned his musicians to begin to play.

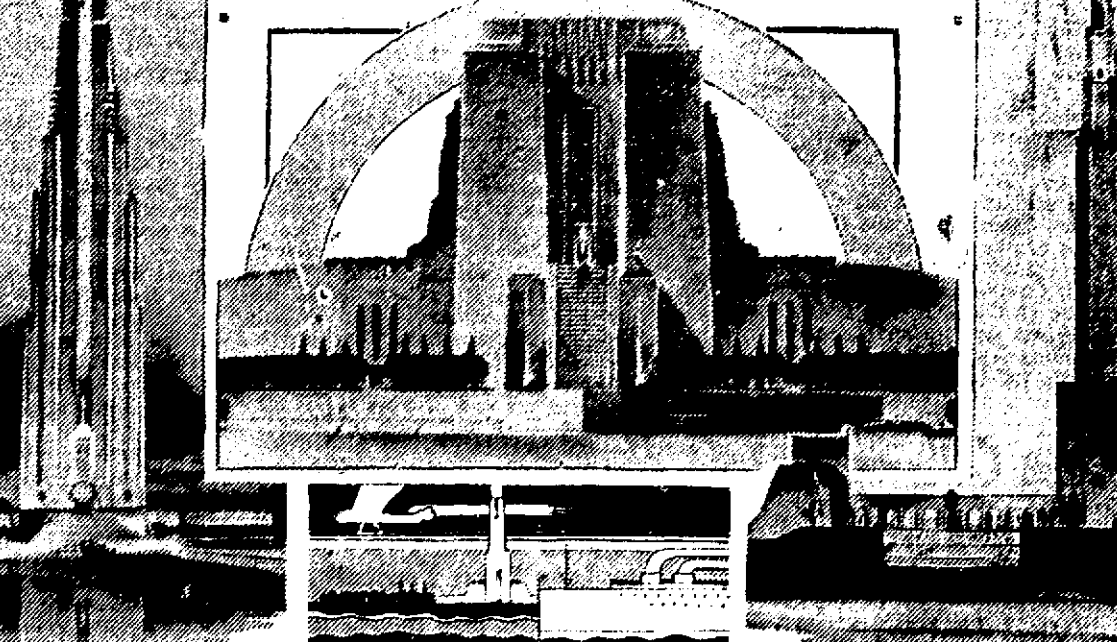

Now that a man trained in the U. S. Marines has been made president

**Huge Air Beacon To Honor Columbus; 21 American Nations Join In Project**

Designs for a great lighthouse memorial to Columbus at Santo Domingo include those of W. K. Oltar-Jevsky (right), Will Rice Amon (left), and Edgar Lynch (center) who collaborated with Donald Nelson.

WASHINGTON, Sept. 11.—(A)—A great "cross-roads of the air," marked by a giant beacon light, is to honor the spirit of Columbus at Santo Domingo, oldest of new world cities.

The jury, Raymond Hood, representing North America; Horacio Acosta, Latin America; and Eliel Saarinen, Europe, will judge the models. Designs are to cover construction of the memorial lighthouse, a chapel and library, the necessary land and water approaches, and the airport at an estimated construction cost of \$1,500,000. The models were elected in a preliminary contest sponsored by the Pan-American Union, from a field of 445 artists from 46 countries. The winner of the second competition will be awarded \$10,000 and become architect of the memorial.

American architects who have submitted plans include Edgar Lynch, of Chicago; Will Rice Amon, New York; Helme, Corbett, and Harrison, New York; and Douglas D. Ellington.

**Hears Allied Vets to Convene Here**

International head of the United States Association of Veterans of the World War is Lt. Col. Fred W. Abbott of England. He will preside at the convention of the organization in Washington, Sept. 13 to 21, the first time the annual meeting ever has been held in the United States.

"One-Eyed Cars"

Editor The Star: Knowing that you are interested in the well being of our community, may I from time to time ask you a few questions?

What is the matter with our highway or traffic policemen? Many motorists and truck drivers endanger the lives of others each night with their one-eyed cars.

This old resident saw a number of these one-eyed cars pass through the business district of the city the other night without being stopped by city police.

Maybe public opinion can help.

Sept. 13, 1929.  
Hope, Arkansas.  
COLLIER

**Fireworks Display At Louisiana Fair**

SHREVEPORT, La., Sept. 12.—Among the attractions booked for entertainment of visitors to the 1929 Louisiana State Fair, opening Oct. 25 will be a magnificent fireworks display, which will be given in front of the grandstand each night of the State Fair.

The program provides for an elaborate exhibition of pyrotechnical "settings," which will include representations of different objects of interest and reproductions of important scenes. These various displays will take the place of one gigantic spectacle as given in past years, thereby furnishing spectators with a large variety of fireworks.

The public is always interested in fireworks, and the fireworks program arranged for the State Fair visitors' entertainment is expected to provide lots of pleasure. There will be a large assortment of offerings with dazzling effects and elaborate presentation.

Fireworks, however, will by no means comprise the amusement program for State Fair visitors. Rodeo, Stampede, which will bring a large group of noted cowboys and cowgirls into action; band concerts; Gladway shows and circus acts, with "Winter Garden Revue" the feature act; and several football games including the Louisiana-Arkansas game, November 1 and the Sentinry-Baylor game October 23. "It's your fare—so be there."

**Asks Jail Term**

TORONTO, Ont., Sept. 12.—(UP)—Given the choice of a jail sentence for theft of a bicycle, or payment to the owner of the bicycle's value, Edgar Jacobs asked for the jail sentence to teach me a lesson." He already had been in jail for a week on remand and found it "all right," he said.

**Modern Chicken Thieves**

LONDON, Ont., Sept. 12.—(UP)—Even chicken thieves are benefiting by the marvels of science in Western Ontario, according to Inspector George Tustin of the Humane Society. Tustin claims that the thieves have been administering anesthetics to unsuspecting fowls. Empty ether cans left in chicken coops remain as evidence of the thieves' modern methods, he claims.

**Oh Boy! What Joy LIFT CORNS RIGHT OUT The English Way**

Right from England comes the new, better, joyful way to take out corns—roots and all.

Callouses go also and you can rub off that hard skin on heels and toes with your hand—the magic treatment.

Ask Ward & Son or Briant's Drug Store for a package of Radox—put 2 tablespoonsful in a gallon of hot water—do this for 3 or 4 nights in succession—then lift out the corns.

This joyful exhilarating bath is simply great—you'll enjoy every minute of it and your burning, sore, tired, aching feet will feel better than they have for years—ask for Radox and foot comfort will be yours.

Mrs. Sid Henry Telephone 321

There's a tender, holy feeling, as of autumn in the air, 'tis a prayer, 'tis a prayer; sweet benedictions and all blessings beam upon us, everywhere, everywhere; while memories of summer now faintly fly far away. Hill and valley sing in gloe, "O, let love and the harvest be," With the tender, holy feeling, as of autumn in the air.—Selected.

Charles Robinson, principal of the Prescott High School was a visitor in the city yesterday.

Miss Bessie Boyle of Corpus Christi, Tex., J. R. Boyle and F. H. Reamey of Malvern were week end guests of Mr. and Mrs. Ed Boyle at their home on South Main street.

Miss Alice Pritchard left Saturday for Lynchburg, Va., where she is a student in Randolph-Macon college for women.

Mrs. W. G. Allison has returned from a week's visit with friends in Arkansas.

Willard Pollard left today for the Academy near Fort Smith. He will be a student for the coming term. He was accompanied by Mr. and Mrs. Max Cox and Mrs. W. G. Allison.

Mr. and Mrs. T. H. Reamy who have been guests of Mr. and Mrs. Ed Boyle for the past week have returned to their home in Malvern.

Mr. and Mrs. A. C. Whitehurst spent today visiting in Camden.

Mrs. Virginia Ottenrider was a luncheon guest of Mrs. A. A. Boyett yesterday returning to her home in Little Rock on the Texan last night.

Miss Virginia Higson left yesterday for Arkadelphia, where she is a student in Ouachita college.

Mr. and Mrs. Charles Lowthorp, Sr., have returned from a visit with Mr. and Mrs. Charles Lowthorp, Jr., in Gonzales, La.

Willard Bovill left Saturday for Milwaukee, Wis., where he will spend the winter.

Mr. and Mrs. James E. Victor and children, who have been guests of Mr. and Mrs. J. Frank Miles have returned to their home in Warren.

Miss Jessie Page, who has spent the past week visiting with friends and relatives in Hope and Washington has returned to her home in Ola.

The musical concert given by the Junior High School for the benefit of the Hope Library was a very creditable performance and well attended, and the Library Board extends thanks to all who assisted in making the evening such a success.

Mr. and Mrs. Charles Baeder had an over night guests, Mrs. Emma Berry, Mrs. John McCall and Mrs. Henry Turner of Texarkana.

Mrs. F. O. Deahlridge of Hugo is spending a few days in the city, visiting with friends and relatives.

Mr. and Mrs. W. Q. Warren had as week end guests Mr. and Mrs. Ed C. Henderson of DeQueen.

Mrs. Oscar S. Hubert and Richard Johnson, who have been guests of Mr. and Mrs. O. F. Ruggles for the past few days, have returned to their home in Pittsburg, Kan.

Miss Ida and Mollie Hatch have returned from a week end visit with Mrs. R. L. Harmon at her country home near Ozan.

THIS IS the Tyrolean type of hat which promises to be greatly favored for fall. The brim is of double felt and rolls high up over the left side.

## Personal Mention

Mrs. Claude Stuart, head of ladies ready to wear department of Geo. W. Robinson & Co., has returned to her duties, after an absence since June, on account of illness.

Miss Lena Henry returned Sunday night from a visit in Shreveport.

Terral Cornelius made a business trip to Okay Tuesday morning.

Mr. and Mrs. L. B. McIntosh returned Monday night from Fayetteville, where they had gone to take their son, Ansel, who enters the University there for his second term.

## Fireworks Display Each Night at Fair

### Commander Byrd's Return From the South to Be Shown

Commander Byrd's return from the South Pole, and his triumphant reception in America, will be especially commemorated and celebrated at the Southwest Arkansas Fair which opens in Hope, September 22, according to plans announced today by local fair officials.

The fair board has ordered a huge fireworks display for the occasion, reproducing in heroic size Commander Byrd and his party in the polar regions. The display, in colored action-fireworks, will show Byrd's ship, dog teams, plane, and exploration party, navigating their way among the icebergs and other hazards of the frozen south. The feature will be an additional number to the regular fireworks entertainment program scheduled for the fair, and will be constructed and shipped here in a special car by the Theodor-Duffield Fireworks company of Chicago, the world's largest builders of pyrotechnic displays.

The evening fireworks show at the fair will also be headlined by numerous specialties, according to the program announced by fair officials. These will include, a modern naval battle, in which the entire action takes place in fireworks—with the sinking of ships by submarines, bombardment by land forts, and all the maneuvers of a typical sea fight.

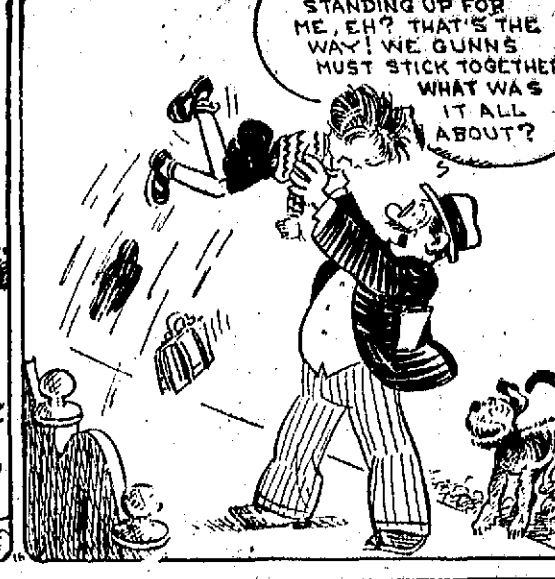

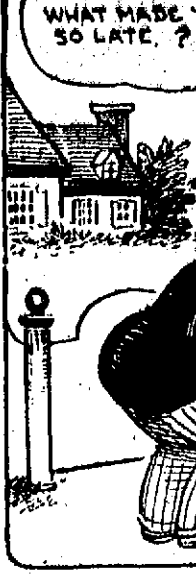

"Jungle Land," an action feature, covering a firing field 300 feet long, depicting big game in its natural haunts in the African jungle and the experiences of a hunter in search of

## Which Would You Chose?

Love and poverty? Or riches and unhappiness? Laura Lou Brookman, who is a writer of delightful love stories, is the author of the Hope Star's new serial story which started last Friday. It's not too late to start reading it now. "Heart Hungry" is the title. And the story is built around the decision of pretty Celia Rogers, whether she is to choose poverty with love, or unhappiness with riches. It is a lovely story. Begin it today.

## St. Louis Man 67, Eager To Praise Konjola

Quick Relief From Painful Rheumatism Makes Another Happy Man Enthusiastic.

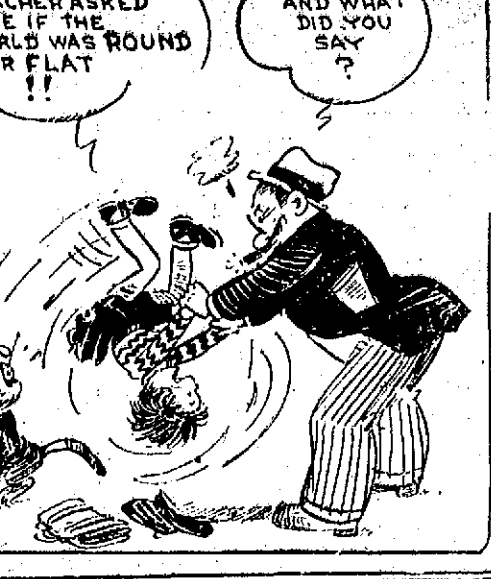

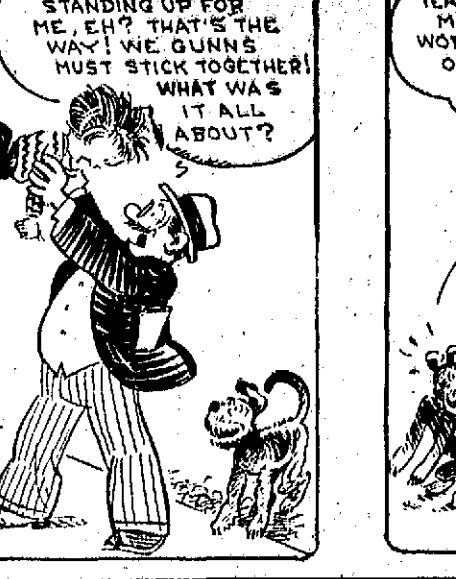

MR. GEORGE E. GUSSIE "I am sixty-seven years of age and suffered with rheumatism in my arms and legs for several months," said Mr. George E. Gussie, 2023 Park Avenue, St. Louis. This ailment gave me many hours of pain. Weak kidneys brought on severe backaches and I lost many hours of sleep. My tongue was badly coated and I suffered from severe headaches. Nervousness caused my entire system to be upset at times. "A friend who had received a marvelous benefit from Konjola, finally induced me to give this medicine a trial. My ailments began to leave me one by one. Rheumatism no longer bothers me and my kidneys are again normal. I sleep well at night and am free from headache. This improvement in my health has banished nervousness. I shall recommend Konjola for the rest of my days." "This great compound, taken with regularity over a period of six to eight weeks, has made a record that would often challenge belief were the actual facts not known and verified. Konjola is sold in Hope, Ark., at Bryant's Drug Store, and by all the best druggists in all towns throughout this entire section. Adv.

## Chic Ensemble

## HOOKS & SLIDES

by William Braucher

### Who Are the Cardinals?

Coming up from the back with a tremendous rush, the ball team known as the St. Louis Cardinals has recently been mentioned in the National League pennant race. Baseball fans, who for the last few months have been reading the "three-cornered" pennant race in the older circuit, will be puzzled to find out what has happened. And who are these Cardinals?

The Cards are a strange ball team led by old Gabby Street, the man who blocked Walter Johnson's path for years and years. In the spring, down south, the Cardinals played the Braves team to a series of old men's league. A heavy well-worn-up aggregation, they had fought back and forth with which to pitch up the mound in which he hoped to drive in the top of the league, and the Cardinals' record was not too good to make the best of.

### Cranks Her Up

It has made it 20. To start with, he established Gabby Street as BOSS, spelled all the way with capitals. Gabby treats them and the alike. He is stern, but he gives each and every player a fair shake.

Well, there's Frisco, Frankie Frisch, second and third baseman. Jim Brearton got him from the Giants in the deal for Hornsby after the 1925 season.

Then there's "Sparky" Adams, second baseman and utility infielder. The Cubs had him for a long time and sent him to Pittsburgh. St. Louis bought him last November.

Now we come to Andy Dick, another infielder. He played four years with Brooklyn. Uncle Robbie sent him to the Braves for the winter price. He played with the Braves a couple of years. Then he came to the Cards. It seems as though they all go to the Cards sooner or later.

### With McGraw's Compliments

One of the outlanders is a young man named George Fisher. Mike Gonzalez would describe him as "Good hit, no field." Knocked baseballs to pieces and catches fly balls on the spot. McGraw sent him to the Cards in the spring for Clarence Mitchell.

Behind the bat? Well, there's Jimmy Wilson. Caught for the Phillies. Finally Mr. Baker sent him to the Cards for Homer Peel and Virgil Davis.

Fischer? We have B. Grimes, who's going.

### DID YOU KNOW THAT—

PROSTY PETERS said the Olympic Club of San Francisco recently for having been voted and not meeting his expectations. The former Olympic Club was he named as a two football job at \$100 and spent \$100 to go to the coast. Freddie Spurgeon and Pete Ridge, former big leaguers, who are now playing in the American Association, held a spelling bee the other day. Pete Ridge told Freddie he was a slacker. "You don't even know how to spell slacker," Spurgeon replied. "Oh, yes," said Pete Ridge. "I do." He spelled it: "S-L-A-C-K-E-R." To which Freddie retorted, "By gosh, you're right!" Once when George Connelly, the Toledo singer, was on the White Sox roster, he received Christy Fisher with the bases loaded and Babe Ruth at bat. . . . Babe hit the ball seven miles out of the park. . . . the boys rushed up to George and patted him on the back. . . . "That's the way to get the runners off the base, old boy," was the chorus.

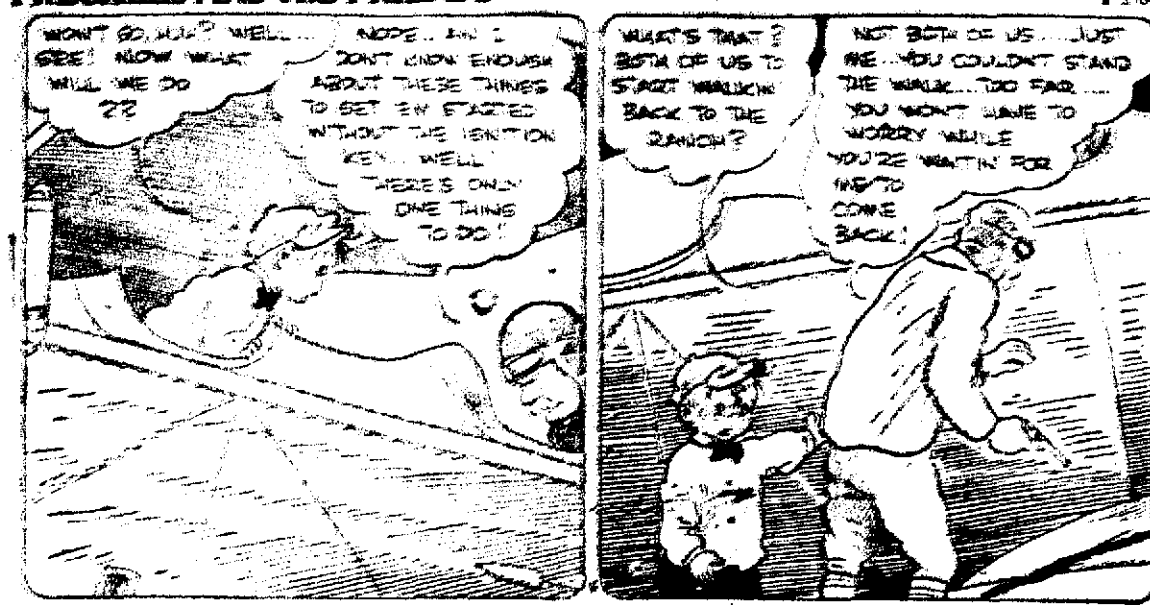

who has been shunted all over the National League in his years and years of his league experience. We have Phil Rhee, sent up and down from the minors and the majors so rapidly and so often that he never is quite sure whether he was to pitch tomorrow in Houston, Rochester or Cincinnati.

### A Couple of Regulars

Of course, there are several people on the team who have been confirmed Cardinals, practically all of their lives, such as Douthett, Haley, Haines and Benny Jim Battonley. But the others are for the most part men who have been bumped this way and that, finally to land in Branch Rickey's Haven for Harassed Ivors.

Around stars, such as Charley Gelbert, Frankie Frisch and Jim Battonley, who old Gabby Street has named a group of journeymen ball players who may not be going any place in particular, but who will have something to say about it.

## Connie Mack

### His 50 Years in Baseball

by Alan Gould

### No. 2—A Home Town Champion

The late Lowmeyer, who was remembered having seen Connie Mack in a baseball uniform working behind the plate, are the gray-headed veterans who can also recall the greatness of Pop Anson and Dan Brouthers, King Kelly and Old Hoss Baker.

### HAD YOUR SPLINTERS TODAY?

"We would certainly get a better price for our wheat, writes a discouraged farmer to the Dallas News. 'If more people used it. Can you not suggest some practical plan to increase the demand?' 'Yes,' answered the editor. 'Outlaw the breakfast food factories from the bumper crop.'"

## Swims Channel

Again the English channel has been conquered by a woman—this time by Miss Peggy Duncan (above). 19-year-old South African. Miss Duncan failed to beat Gertrude Ederle's record, taking 15 hours and 15 minutes for the trip.

### CONNIE MACK

From a manager has almost achieved Mack's playing days and the fact that he was a catcher of considerable major league caliber.

He finished his active days in Milwaukee, where he was player-manager of the club representing the Wisconsin city in the Western League and for one year, 1900, in the newly formed American League, before going to Philadelphia in 1901.

From the day he put the new American League on the field on the former major league Mack never again uttered a uniform, and this he never did, his team from anywhere but one end of the bench.

Back in East Brookfield, an hour town, Mack became the trainer of the local amateur team because he was game and willing. Moreover, the backup, then as now, was the primary point for strategy and defense. Mack then as now, was quick to act up on a whim, quick to act. The quality of quick leadership seemed born in him.

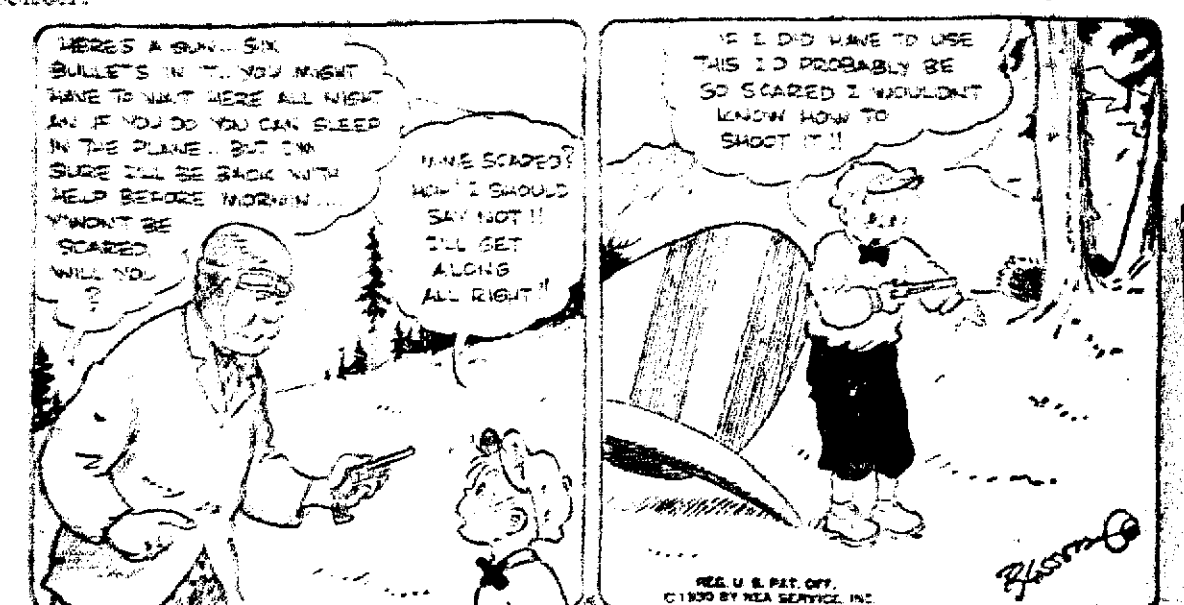

East Brookfield's name was the first championship, Mack Mack and anything to do with it. It was the "pennant" at the amateur league of Philadelphia in Canton, Massachusetts.

Fifty years later it was a source of pride to the old manager to remark that the silver bat, emblematic of the victory, still stood in the town firehouse. The fame of East Brookfield's team grew. Likewise its chestiness. The boys who hung around the firehouse of an evening were told to often they were good that they began to believe it themselves.

By 1882 when Mack was 21 and able to vote the next year for Grover Cleveland, the East Brookfield club was held enough to challenge Worcester, then just taken into the National League fold, for an exhibition contest.

The big leaguers won of course, but the hometown boys satisfied themselves they could mix in this kind of company. Accordingly, the more ambitious spirits sought to attract the famous Chicago Colts, Pop Anson's champions, to the little Massachusetts town for another exhibition. The Chicagoans demanded a substantial guarantee—something like \$250. It looked a little dubious, but hometown pride rose to the emergency. The money was raised, the Colts came and dazzled.

## Protection!

congenial demanded a substantial guarantee—something like \$250. It looked a little dubious, but hometown pride rose to the emergency. The money was raised, the Colts came and dazzled.

"I recall that event quite vividly," said Mack years later. "It was a holiday for us all. The big leaguers swaggered about, and me were all much impressed and very serious. For four or five innings of the game we held our own, surpassing ourselves. Then, of course, we found the competition becoming a little too good for us."

"I always think that game had a good deal to do with my entering professional baseball. Some of the Chicago players were generous enough to compliment me on my work behind

the bat. They even suggested I take up the game and leave the factory. Several said they would put in a word for me, and they may have done so, for it was that same year, 1884, that I received an offer of \$50 a month to play with the Meriden club in Connecticut.

"Never before had the idea entered my head that such money could be had for doing the thing I liked most. I would have accepted for much less than that."

It was an important decision for the youthful McGillicuddy. His father had died earlier, and Connie was needed to help support the family, but the financial opportunities in baseball seemed so far superior to those of an ordinary shoe-

worker that it did not take long for the family council to decide what was most advantageous. The trade lost a good cobbler, but baseball gained a master mind.

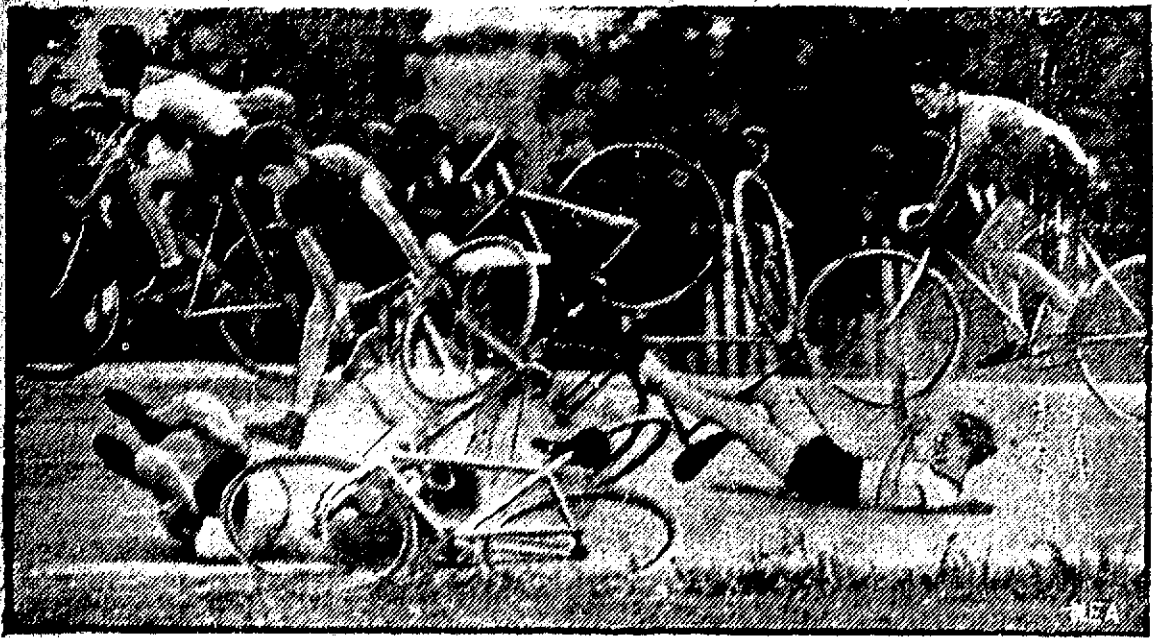

After finishing the 1884 season with Meriden, Mack went to the Hartford team in 1885 and quickly attracted the attention of major league scouts by his clever backstopping.

A year later he was among five Hartford players purchased by the Washington club, then in the National League, for \$3,500 a big amount for talent at that time.

## BEGIN HERE TODAY

CELIA ROGERS, lacking one of the things which are essential to a happy life, is a widow and employed in a dress shop. Her life in Baltimore and the other's earnings are their only source of income.

CELIA is unsuccessful in her search for work. Mrs. Rogers gives her a letter which she received from the girl. This letter, signed JOEY, is an offer to provide Celia with every advantage of education, travel and social position if the mother will give her up. Margaret declines she will never do this.

## CHAPTER IV

"WHERE is she—my mother?" Oh, has anything happened?" Celia demanded, her voice rising hysterically.

The doctor held up a warning hand.

"Quiet!" he insisted. Then, eyeing the girl kindly, went on:

"Are you Mrs. Rogers' daughter?" She's resting quietly but you must not disturb her! No cause for alarm. Your mother is suffering from a heart attack—brought on, I would say, by exhaustion.

"Can't—can't I just see her?" Celia begged.

"After awhile."

Dr. Williams turned to one of the women who seemed to be in charge of the nursing room. "There's nothing further I can do," he said.

"She's comfortable. Let her rest where she is as long as you can. By 5:30 her daughter can take her home. What she needs is rest and quiet for a few days—particularly if this hot weather lasts. Ought to stay home tomorrow by all means. Well, I'll be on my way."

Celia caught the doctor's arm.

"Please," she begged, "tell me what's happened!"

Patently Dr. Williams reviewed what he had said. The intense heat had caused Mrs. Rogers to collapse. Emergency measures had been applied with satisfactory results.

"Just keep her quiet and comfortable," he said. "She'll probably feel weak for some time. Don't let her worry about anything. Of course she'll have to be very careful to avoid hot sunlight the rest of the summer. Ought not to exert herself in the least during hot weather. You look to me like a pretty good nurse. Take care of her!"

With a smile Dr. Williams departed. He had been called in because his office was just two doors from the dress shop. He had done what he could for the sick woman. As he strode into the street the doctor shook his head, muttering something unintelligible, and paused to wipe perspiration from his forehead.

The other women who worked with Mrs. Rogers were sympathetic. They tried to comfort the girl and Mrs. Foster, who was really "Margot" and owned the shop, came in to tell Celia her mother should remain home next day.

FINALLY the half-hour was up. Celia tip-toed down the hallway and peered into the rest room.

Her mother seemed to be sleeping. She looked little and tired and her face was pale as she lay on the low cot. An ice bag covered Margaret Rogers' forehead. Her clothing had been loosened. The

Barney's bright smile flashed at her, but immediately he saw something was wrong.

breeze from an electric fan swept the room.

Celia crept silently to the only chair and sat down.

It seemed incredible. Celia could not remember when her mother had ever been ill before.

Once Margaret Rogers moved restlessly. Her lips twitched but she did not open her eyes. The slow rise and fall of her chest continued regularly.

The dress shop closed at five o'clock but Mrs. Foster and one of the other women stayed after that. Presently they told Celia that a cab was waiting at the door. They helped her rouse Mrs. Rogers, helped the woman to rise and get ready to go home.

"Celia!" Mrs. Rogers whispered softly. That was all she said until after they got into the cab and Celia had given the driver the address. Then the mother leaned back against her daughter's arm and gave a long sigh.

"So tired," she murmured. "Glad you're here, darling."

The driver of the taxicab helped Celia take her mother up the two flights of stairs leading to the flat. Lying on the bed before the open window Margaret Rogers looked up into her daughter's face and managed a wan smile.

"I'm—all right now—dear. See about your dinner—I'm all right. She refused to be waited upon. Celia pushed the windows as high as possible, brought ice wrapped in towels for her mother's head, but nothing the girl could do could keep the room from feeling like a bake oven.

After Mrs. Rogers closed her eyes and seemed to doze Celia went into the living room. She sank into a chair, fanning herself with

no amount here any longer!"

She would like to have him stay, Celia admitted, but it probably was best for him to go.

For a moment Barney Shields held her close, touching her lips with a quick kiss. Then he let her go.

"Night, dear," he said, and disappeared down the stairs.

Celia Rogers had gone into Margaret's dress shop that eventful day with exciting news. It was afternoon of the following day before she confided this news to her mother.

True to Barney's prediction, Mrs. Rogers awoke the next morning to pronounce herself rested and entirely recovered from the collapse. A pale face belied these words and Celia insisted on keeping her mother in bed, bringing her food that was tempting and nourishing and generally indulging her.

"But how," Margaret Rogers asked shortly after lunch, "did you happen to drop in at the shop yesterday?"

CELIA remembered the doctor said there should be no shocks and no excitement. She was cautious.

"Well, I wanted to see you."

"Wanted to see me about what?"

"I wanted to tell you something. It was—well, I know where I can get a job."

"Celia! What kind of a job?"

"Why didn't you tell me?"

It had really been the most marvelous luck Celia's eyes grew wide as she talked. It had all happened so suddenly. She had been on her way to see a prospective employer the day before when she met Sally Roberts on the street. Sally had finished Western the year before and stopped to ask what Celia was doing. As soon as she heard Celia was looking for a job she volunteered to help.

Sally was one of the stenographers in the office of the Ridgeway Contracting company. One of the other girls in the office was leaving to be married in 10 days. No one else had been hired yet to take her place.

"Well—I went right over to see Mr. Porter—he's the man in charge—and Sally told him I had a good record in school. Mr. Porter talked to me a while and then he asked me to take some dictation. Thank goodness, I got it right! After that he said I could have the job. Isn't it wonderful? I'm to get \$20 and begin work a week from next Monday!"

Mrs. Rogers agreed that it was wonderful. Her strength seemed to rally with Celia's enthusiasm. Later in the afternoon she insisted upon dressing and even went downstairs for a stroll in the cool of the evening.

"Our luck's changed!" Celia sang out as she was undressing for bed.

"You're well again and I have a job and—oh, I feel so happy!"

Barney Shields' name had been on the tip of her tongue when she cut her words short. Celia was not quite ready to tell even her mother about Barney.

Next morning Margaret Rogers insisted upon returning to work at the dress shop. She refused to listen to her daughter's cautions and departed at the usual hour. She went again the next day and the next.

But on that third day, unknown to any of her co-workers, Margaret Rogers visited a doctor's office. The physician gave his ultimatum bluntly.

"That's the girl!" said Barney. "Well, I suppose you don't want

a folded newspaper. She was hot, tired and still frightened. The early afternoon seemed years away.

PRESENTLY she arose, found cold food and nibbled at it. She had no appetite and soon cleared away the dishes.

At eight o'clock she heard footsteps on the stairs and knew they were Barney Shields'. Celia hurried into the hall to meet him.

Barney's bright smile flashed at her as he reached the top of the stairs. Immediately he saw something was wrong.

"Oh, Barney," the girl said in a low voice, "I'm glad you've come. It's—I've been so frightened!"

The youth was beside her, his face as grave as hers now.

"What's happened?" he asked.

"What's the matter?"

Celia told him. They stood in the hallway talking in whispers so as not to disturb the woman in the bedroom.

Barney tried to comfort her.

"But, honey, don't cry! Everything'll be all right tomorrow. I'm sure it will. Gosh, on a hot day like this anyone's liable to go to pieces!"

"Oh, but—I don't know—!"

He slipped an arm around the girl and patted her shoulder.

"Your mother'll feel better in the morning," he said reassuringly.

"I'm sure of it."

It was good to confide in Barney. He seemed so protective. It was wonderful, too, to see the same tender, worshipful look in his eyes they had held last night.

Celia, remembering, brushed a hand across her misty lashes and smiled back at him.

"That's the girl!" said Barney. "Well, I suppose you don't want

## Headed Crew That Found Andree

Captain Eliassen, skipper of the ed above as he brought his history-making ship back to Tromsø, Norway, with the bodies of the long-lost members of the Andree polar balloon expedition. Members of his crew discovered the remains of the vanished exploration party on White Island in the Arctic after the mystery of their disappearance had been unsolved for 33 years.

## Finds Indian Cemetery

LEWISTON, Ill., Sept. 16.—(UP)—Dr. Don Dickson, University of Chicago professor, has uncovered near here traces of a cemetery of Indians who lived in this section 1,000 to 2,000 years ago. He estimated that more than 5,000 skeletons would be found under one mound, which is in the shape of a crescent, 550 feet from tip to tip, and 150 feet wide at the center. Dickson believes the skeletons are those of Indians related to the Mound builders.

## Excuse That Failed

HAMILTON, Ont., Sept. 16.—(UP)—A plea that strong cheese, not liquor, made him ill, failed to save J. J. Burnett of Buffalo from jail when he was charged in police court with driving an automobile while under the influence of liquor. Magistrate Vance augmented the seven-day jail sentence with a suggestion that the next time Burnett comes to Canada he try a different brand of cheese.

## Rope Is Rock Python

ST. LOUIS, Sept. 16.—(UP)—A rope appeared to be twined about a stalk of bananas which reached the Banana exchange here but when the "rope" was wriggled, employees scattered. By means of a stick, two employees snared the "rope" and found they had a rock python, two and a half feet long. It was presented to the zoo.

## Plenty of Wheat

BETHALTO, Ill., Sept. 16.—(UP)—George Kabel, 87-year-old farmer, estimates that he has threshed enough wheat during the past 60 years to make 118,320,000 loaves of bread. His average has been 30,000 bushels a year.

## BLACK-DRAUGHT LONG IN USE

Georgia Lady Tells of Buying Her First Package of This Medicine in 1876.

Gainesville, Ga.—Theodore's Black-Draught has been in use for the relief of constipation, indigestion and biliousness, for nearly one hundred years, and many people tell of having taken it, when needed, all their lives.

Mrs. M. C. Barron, of 64 West Myrtle Street, this city, recalls her first use of Black-Draught, fifty-three years ago.

"When I lived in Forsyth, Ga., in 1876," says Mrs. Barron, "I bought my first Black-Draught at Mr. Jim Jay's store. He was selling it, and some one in the store recommended it to me for biliousness, and as I was having trouble and needed a purgative, I bought it."

"If I get constipated, I have headaches and feel so tired and sluggish, and such a bad taste in my mouth. But after I take a few doses of Black-Draught I get all right."

"In all these years, I have never found a better medicine of the kind. I am satisfied, so why change? I recommend it to old and young."

Sold in 25¢ packages.

Theodore's BLACK-DRAUGHT for Constipation Indigestion Biliousness

## OUT OUR WAY

## Scotto Gains Mussolini's Permission For Students

MONTE CARLO, Sept. 16.—(UP)—Olivio Scotto has returned from an interview with Signor Mussolini with the news that the Premier has granted formal permission for transfer of articles from the Scala to Signor Scotto's theater in Rio de Janeiro. Signor Scotto also announced that he would go to Hollywood this year to make an "opera tone" film for Universal.

## Railways Lose

BUCHAREST, Sept. 15.—(UP)—During the past year the Rumanian railways, which are state-owned and state-operated, showed a deficit of half a billion lei.

## Horse Show Entries

ST. LOUIS, Mo., Sept. 16.—(UP)—More than 500 thoroughbred horses have been entered in events of the St. Louis National Horse Show, to be held here October 11 to 19.

## WANTED

WANTED—Three neat appearing young ladies, residents of Hampstead county, to work in advertising and soliciting booth for local proposition of merit, at Fairgrounds next week. Good proposition to workers. Apply O. B. Redden, Circulation Dept., Hope Star from 8 to 9 a. m. and 7 to 8 p. m. Wednesday and Thursday only. 16-21c

## Unusual Ceremony

ST. LOUIS, Mo., Sept. 16.—(UP)—Dr. Harris Gregg, Presbyterian church pastor of New York, preached his wife's funeral sermon here recently. Instead of offering an eulogy, he read four religious poems, written by Mrs. Gregg, interspersing them with scriptural passages.

## Famed Skipper Dies

ST. LOUIS, Mo., Sept. 16.—(UP)—Capt. William Leyhe, who for but six of 90 years, lived on or by the Mississippi river, died here recently. He had been president of the Eagle Packet Company since 1885—the Eagle boats have been famous along the river for 72 years.

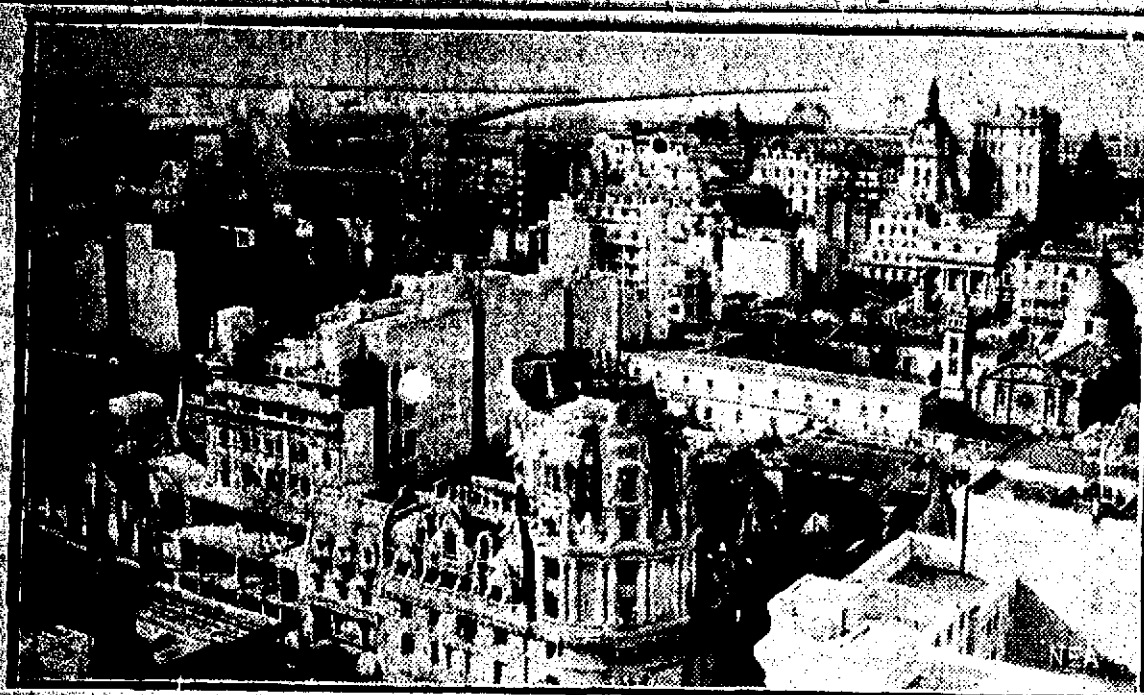

## Woman Plans Globe Flight Alone

A hazardous lone flight—either around the world or across the South Pole—is planned for this fall by Mrs. Victor Druce, above, British aviatrix. Her airplane, driven by a 120-horsepower engine and capable of 1000-mile flights at a speed of 100 miles per hour, is nearly completed. She has not yet decided upon the route for either of the proposed flights.

## Argentina's Revolution-Torn Capital

This unusual birds-eye picture of Buenos Aires, as seen from the tower of the Guemes Arcade, shows the center of the city and the harbor in the background. Sharp clashes occurred in the streets in the outbreaks that marked the ousting of President Hipolito Yrigoyen and installation of General Jose E. Uriburu as provisional president of the Argentine.

## Columbia's Power To Reclaim Vast Area

Proposed intake for a gravity system of irrigating the Columbia river basin is Clark Fork river in Idaho (left). A dam and power plant in the Columbia's old bed at head of Grand Coulee (upper right) also are suggested to pump water into land now dry-farmed (lower right).

SEATTLE, Wash., Sept. 11.—(AP)—Markets for the power and additional crops to be created by development of the stream have been studied, in addition to power and navigation sites, needs of irrigation and other related subjects.

Construction of the first big power project on the Columbia already has begun—a \$12,000,000 hydro-electric plant at Rock Island, near Wenatchee. There provision will be made for locks to carry freight boats of the future around the dam.

Two plans for reclamation of semi-arid lands of the Columbia river basin, which covers 1,883,000 acres, have been suggested.

One calls for a dam across the Columbia at the head of Grand Coulee, where glacial action once turned the Columbia from its old course into an entirely new channel.

By this plan the Columbia's old bed, now 600 feet above the river level at the point of diversion, would be used as a canal and storage basin. A power plant at this point would pump

water to the Grande Coulee, whence it would be drawn by gravity to irrigate farm lands.

The second plan contemplates taking water from the Clark Fork river at Albany Falls, Ida., conducting it through a series of canals, lakes and other water courses for 135 miles and distributing it by gravity over the area to be reclaimed.

Navigation of the Columbia and one of its principal tributaries, the Snake already has figured in the movement of crops from the grain belt of Washington, Idaho and Oregon. Locks were built in the river some years ago.

A reduction in railroad rates, however, later wiped out the river freight, but efforts to revive it are being made.

**Plan Examination For Columbia Co. Teachers**

MAGNOLIA, Sept. 16.—Quarterly examinations for Columbia county teachers will be held Thursday and Friday at the office of the county superintendent.

## Barbara Worth On Visit To Old Home

Hollywood Player Formerly a Horatio, Arkansas School Girl

HORATIO, Ark., Sept. 16.—This community entertained one of its distinguished daughters during the past week-end, the occasion being a visit by Miss Barbara Worth, moving picture feature player from Hollywood. Miss Worth left Horatio about five years ago after spending her school girl days here with her parents and shortly after her arrival in Hollywood was given an opportunity to appear in pictures for the Universal company.

During her girlhood days here, Miss Worth became an excellent horsewoman and this ability helped her to obtain a place in the movies. She was co-starred with Hoot Gibson in a number of his outstanding pictures, including "The Prairie King" and the "Mine With the Locked Door," and has later been co-starred with Reginald Denny in "Fast and Furious," "On Your Toes" and "Slow Down." Miss Worth's latest pictures are "Loyalty" for Radio Pictures and "The Broken Hearts of Hollywood" for Warner Brothers. She is now returning from a vacation trip by automobile to New York and points in Maine.

The occasion for Miss Worth's stop in Horatio was to visit with her relatives and friends and to look after the interests of a large farm which she owns near here. She was accompanied by her husband, Tamar Lane, well known novelist, newspaper writer and publisher of the Pacific coast. Miss Worth also writes for newspapers on the coast, her work includes reviews of pictures and special features in connection with motion picture production. While here, Mr. and Mrs. Lane were guests of Mrs. Yabrous, an aunt, and were entertained at Little River Country Club. They left early Monday on their return trip to Hollywood.

## McCaskill 4-H Club Will Hold Meeting

Plans Will Be Made For Exhibit at Southwest Arkansas Fair

The regular meeting of the McCaskill 4-H Club will be held at the school house next Thursday morning at 10 o'clock. The club meets each third Thursday in the month.

The lesson for the morning will be on 4-H Club Fair Exhibits and each Club member will be expected to arrange to have an exhibit of their club project at the Southwest Arkansas Fair next week. This is one of the requirements of all 4-H club members in the county and since the time for the Fair from this club, according to Lynn L. Smith, county agent.

The boys in the McCaskill club are all carrying Sweet Potato projects, and in spite of the dry season there should be some pretty good exhibits to ride the Fair from this club, according to Lynn L. Smith, county agent.

## Sets Fire to Car, Decoys Cops Away

Youth Fires Auto to Empty Police Station Before Making Collection

COLUMBUS, Ohio, Sept. 16.—(UP)—When Thomas Rush, 12, decided he wanted a few trinkets that were lying carelessly around the Glenwood avenue precinct station, he hit upon a novel plan of removing molesting "coppers" from the premises.

Rushing into the station house, Rush breathlessly informed the desk sergeant that a car was afire a short distance down the street. The station was soon emptied of its official tenants and Rush, in sole command, proceeded through desks in search of what ever struck his fancy.

Two patrolmen, however, chose to select the moment for reporting on duty and caught the boy with his hands full of flashlights. He not only confessed to the theft but also to setting fire to the machine.

## Fatal Nebraska Train Fire Probe Is Opened

LINCOLN, Neb., Sept. 16.—(UP)—Burlington railroad officials Monday started investigation of a freight train wreck near here Sunday that resulted in the burning of 46 loaded gas tank cars and death of one man.

Damage to the cars, property of the Standard Oil company, and their contents was set at \$135,000. The body of a man, believed to be an itinerant, was recovered from the charred and twisted wreckage. He was burned beyond recognition.

## To Explore Great Heights in Balloon

Housed inside a hermetically sealed gondola of a balloon, as pictured here, Professor Auguste Piccard, physicist of Brussels University, is to attempt to soar to a height of 52,500 feet above Augsburg, Germany, as soon as weather conditions permit. At this altitude, two miles greater than any ever reached by man, he and an assistant hope to obtain measurements of radio activity and the ionization of the air. A supply of oxygen will allow the scientists to breathe when their craft enters the rarified air.

## Monkey Business in This Race

There was a great deal of monkey business in the air when the International Coconut Balloon Derby got under way at Venice, Calif., the other day—for the balloonists were all monkeys. Above is Joe Dankes, who represented the United States and won the race; below is a view showing the lineup ready for the start.

## McCaskill 4-H Club Will Hold Meeting

Plans Will Be Made For Exhibit at Southwest Arkansas Fair

The regular meeting of the McCaskill 4-H Club will be held at the school house next Thursday morning at 10 o'clock. The club meets each third Thursday in the month.

The lesson for the morning will be on 4-H Club Fair Exhibits and each Club member will be expected to arrange to have an exhibit of their club project at the Southwest Arkansas Fair next week. This is one of the requirements of all 4-H club members in the county and since the time for the Fair from this club, according to Lynn L. Smith, county agent.

The boys in the McCaskill club are all carrying Sweet Potato projects, and in spite of the dry season there should be some pretty good exhibits to ride the Fair from this club, according to Lynn L. Smith, county agent.

## Hospitals Are Busy Caring For Injured

Motor Accidents Keep the Staffs Busy While Regular Patients Suffer

LONDON, Sept. 15.—(AP)—A semi-official investigation of conditions in country hospitals will be made soon as a result of numerous complaints that the increasing number of victims of motor accidents is placing a serious burden on these small institutions.

Representatives of the Ministry of Health, Ministry of Transport, the British Medical Association, the Automobile Association and other public bodies will participate in the inquiry.

Directors of the smaller hospitals report that their facilities are utilized by injured motorists thus denying care and treatment to local citizens who maintain the institution whereas the motorist contributes nothing.

Worthing, a seaside resort, was cited as an example. Six motor casualties were treated at the hospital there in one evening. Three of the victims died, and the remainder had to be cared for for several weeks.

The operating staff was kept busy for hours, compelled to sacrifice their rest and practice.

A suggestion has been made that first-aid kiosks be established at convenient intervals along arterial roads.

## Barber Pays For Womans Haircut

Husband Beats Wife For Having Tresses Shorn in Latest Style

SHANGHAI, Sept. 16.—(UP)—Mrs. Chen Ye-Wen decided to get a haircut in the new fashionably short style. So she went to Zao Ku-sing, Shanghai barber, and had the job done.

On returning home Mrs. Chen met her husband, who is a gentleman of the old school. Disliking new-fangled haircuts, he beat his wife.

Police intervened. Presently husband, wife and barber appeared in court.

The husband admitted beating his wife but blamed the barber for doing the deed which gave him provocation.

After due meditation, the judge of the Shanghai District Court fined the husband \$1 for beating his wife, but fined the barber \$2 for administering a hair cut without making sure that it would not stir domestic trouble.

## Oldest Bridge in France Is Doomed After Flood

ALBI (Tarn), Sept. 13.—(UP)—The oldest bridge in France and one of the oldest in Europe, thrown across the Tarn river here in 1035, is to be torn down. Still capable of carrying normal loads in normal times, the bridge proved hopelessly inadequate, as well as dangerous, during last Spring's disastrous floods.

## Propeller of Question Mark Sent to Hospital

NEW YORK, Sept. 13.—(AP)—The injured propeller of Dieudonne Coste's trans-atlantic plane was sent to the hospital today.

After the Albatross flight and a hop to Texas and back a fine split was discovered in one end of the wooden blade. Another propeller was ordered from Paris and is on the way, but won't get here until Wednesday.

## Texas Youth Is Killed in Accident at Dallas

DALLAS, Texas, Sept. 13.—(UP)—Edward Banft, 21, of Irving, was killed Friday when a heavy iron bucket on a drag line of the Dallas Washed and Scrubbed Gravel company, operating near Irving, struck him on the head. Banft's skull was crushed by the heavy bucket.

## Shot From Wife Ends Marital Difficulties

KNOXVILLE, Tenn., Sept. 16.—(UP)—Two months after his wife had shot him in the abdomen after seeing him riding with another woman Henry Hickey, city fireman, gave an interview to the newspapers.

"We are living together," Hickey said. "Both of our divorce suits have been dropped, and I'm not prosecuting her for shooting me."

Mrs. Hickey followed the ambulance to the hospital and remained anxiously at the bedside of her husband during his convalescence. Then she took him home.

## Steamship Magnate Wed 56 Years

Celebrating the 56th anniversary of their marriage, Captain and Mrs. Robert Dollar followed a family reunion at their home in San Rafael, Calif., by embarking on the liner President Grant for their 36th trip to China. Captain Dollar, founder and head of the famous Dollar Line steamship company, has been accompanied by Mrs. Dollar on all his business trips across the Pacific. This picture was taken on their 36th anniversary.

## Old and New Heads of Argentina

The first official act of Dr. Enrique Martinez, right, acting chief executive of Argentina, was to place Buenos Aires, the capital city, under martial law when disorders broke out after the resignation of President Hipolito Yrigoyen, left.

## Man Names Father-in-Law As Person Who Shot Him

BLYTHEVILLE, Sept. 16.—(AP)—Fay Harris, 43, former Portageville, Mo., farmer died here Sunday of bullet wounds which he said were inflicted by John H. Jones, 64, his father-in-law.

Harris married his present wife last April, the day after obtaining a divorce from his former wife. Authorities said Jones accused Harris of continuing attentions to his first wife.

## Scottish Sun Bathers Take to the Mountains

GLASGOW, Scotland, Sept. 16.—(UP)—Sun-bathers in Scotland, denied a place on the beach, are baring their bodies in the mountains.

## Farm Serious Job To Marion Talley As She Bosses 1,000-Acre Harvest

Marion Talley (right), former opera singer, is bossing a 1,000-acre wheat harvest on her Kansas farm where she is shown on a reaper and in a field of grain.

COLBY, Kan., Sept. 14.—(AP)—Marion Talley is part of the farm problem now.

Out on her 1,000-acre farm here, where she is bossing harvest of 1,000 acres of wheat, the former diva expects to reap a 25,000-bushel yield.

It's a long jump from grand opera to harvest time in Kansas, but the 23-year-old singer is playing no "supper" part here.

While she does not actually run a combine or do any manual labor, she checks the loads of grain as they leave the field and pays close attention to the marketing of her crop.

She has made an extensive study of farming methods, resorting often to the state experiment station here for advice.

Early in 1926 she made her debut in grand opera. In April of 1929 she retired abruptly and came back to her Kansas to buy a farm.

The farm is operated by three tenants, William Wallis, William Perrell and Morris Allemen.

In addition to the wheat crop, Miss Talley has 450 acres planted in barley and corn. The Talley family has not yet established a residence at the farm but the building of a home is contemplated for next year.

Miss Talley during the summer lives in a suite of rooms in a hotel here, driving to the farm with her parents and sister each day.

Offers have failed to lure the singer back to grand opera, but Miss Talley says she may sing again. When and where she does not know.

She hopes to be through with harvest in time to spend a vacation in the Rockies and then go back to New York. "I love to travel, and do things any other average 23-year-old girl likes to do," she says.
